

I prefer that the State of Indiana continue use it's present telephone solicitation privacy law. Since I signed up for Indiana's no call solicitation list I rarely receive a solicitation call. Previous to this I was getting 8 or more calls a week from people hawking their products, deals, etc. The FCC should not implement anything that would lessen Indiana's Telephone Privacy law protections. It has been so nice to eat dinner with the family without getting some solicitation phone call interrupting important family time.
